DETAILED ACTION

Allowable Subject Matter

Claims 17-20, 22-24, 41-44, 46-48, 65-68, 70-72 and 81-83 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art either singularly or in combination. They are a display device configured to display a representation of said objects in a presentation having a tree display of objects in said configuration management system, and a content display that displays items selected in said tree display; a server machine for executing said configuration device and producing display information for said representation of said objects within said configuration management system; a network interface connecting said server machine to a network, wherein said network interface is a web interface and said network is one of the Internet and an intranet, wherein said server machine transmits information produced by said configuration device and said display information over said network for display on a remote computer; and a report generator configured to produce, in response to the configuration input received from the user, at least one of access reports, version control reports, and package based reports based on at least one selected of said objects, wherein each of said reports generated by said report generator are formatted as HTML documents and sent via said network interface by said server machine for display on said remote computer. These features are not found or suggested in the prior art.
